County Systems Barriers that Must Change.**

Systems Changes: We Must Act As One!

Get Cleared, Illinois, the campaign of the Monroe Foundation to Break the Generational Cycle of Recidivism in Illinois, is holding a statewide symposium on re-entry program models, policies and "voices" from the "streets". Our goal is to convene in one space, the re-entry advocates to connect, share, and evolve together on new ideas, strategies and "CALL TO ACTION" on similar interests that are system changing, and we want to hear from those that continue to be impacted by barriers to re-entry.

We are seeking the formerly incarcerated to tell their stories of struggling to transition from prison to society, and issues that are still barriers to housing, education and employment.
